

U.S. Dental Network

SAVE MORE WITH A NETWORK DENTIST

We've teamed up with United Concordia Dental to offer members access to a nationwide network of high-quality, cost-effective dental providers. This means you can find **affordable, quality care with great service** no matter where you live, work or travel.

Over 45 years of experience

A national network of nearly 81,000 dentists, who can be seen at over 294,000 locations across all 50 states

A commitment to oral wellness

WHAT IS A NETWORK DENTIST?

Network dentists agree to accept United Concordia's discounted fees as payment in full for covered services. Non-network dentists can charge you more. This means you'll lower your out-of-pocket expense using a network dentist.

You can still receive care from any licensed dentist. But your out-of-pocket costs are likely to be higher with a non-network dentist. Using a network dentist maximizes your dental benefits because you:

SAVE MONEY

A network dentist saves you the difference between our negotiated fees and the dentist's regular charges. And, you stretch your benefit dollars by getting more services before reaching your annual maximum.

SAVE TIME

Network dentists file your claims for you, saving you time and the hassle of having to pay for treatment up front and submitting a claim for reimbursement.

SAVE WORRY

Every network dentist goes through a rigorous review, so you know you're getting high-quality care.
